This guide is designed to help you plan your own peakbagging adventure in the Canadian Rockies North. We'll provide you with all the information you need to know about the region's highest peaks, including their elevation, location, and difficulty. We'll also provide you with tips on how to prepare for your hike, what gear to bring, and how to stay safe in the mountains.

## **The Peaks**

The Canadian Rockies North is home to over 100 peaks that are over 10,000 feet in elevation. The most popular peaks for peakbaggers include:

- Mount Robson (12,972 feet)
- Mount Columbia (12,294 feet)
- Mount Assiniboine (11,863 feet)
- Mount Edward (11,700 feet)
- Mount Gordon (11,631 feet)

### **Mount Robson**

Mount Robson is the highest peak in the Canadian Rockies and one of the most popular mountains for peakbaggers. The mountain is located in Mount Robson Provincial Park, and it can be climbed via a variety of routes. The most popular route is the Berg Glacier Route, which is a challenging but rewarding hike. The route takes you through stunning alpine scenery, and it offers breathtaking views of Mount Robson and the surrounding mountains.

If you're planning to climb Mount Robson, it's important to be prepared for all types of weather conditions. The weather in the mountains can change quickly, so it's important to bring layers of clothing and be prepared for rain, snow, and wind. You'll also need to be in good physical condition, as the climb is challenging and requires a lot of endurance.

### **Mount Columbia**

Mount Columbia is the second highest peak in the Canadian Rockies. The mountain is located in Jasper National Park, and it's one of the most challenging peaks to climb in the region. The standard route to the summit is the North Ridge Route, which is a long and strenuous hike that requires technical climbing skills. There are also a number of other routes to the summit, but they are all challenging and require experience in mountaineering.
